INDEX & SUBJECT GUIDE

This Hansard Index is a guide to – rather than an exhaustive summary of – information contained in the Official Report of the House of Keys Debates in the parliamentary session 2003-04 (Volume 121).

The Index records not only what is said by Members, but, amongst other things, details of Questions asked, motions and amendments passed, and Bills being taken through their various Readings. A subject guide and digest of Members' views is also provided.

To use the Index, select the topic you require and follow any links provided. For example, a search under **Health and Social Security, Department of** will also direct you to: *National Health Service* and *Noble's Hospital*. All entries are listed alphabetically.

Notes:

Questions are listed (1) under the name of the Member asking; (2) the Department or individual being questioned; and (3) separately under the relevant subject heading(s).

Bills are listed under: (1) **Bills moved**, and the relevant stage of their passage through the House of Keys; (2) the title of the Bill; (3) the Member responsible for taking the Bill through the House.

Management and Members’ Standards Committee acted with no appointed Chairman – why?, 17-18

marched as student to support workers’ rights against UK signing up to Europe; still thinks there are dangers in EU process, 421

no logic to UK changes in relation to cannabis; Isle of Man automatically followed, 274

question of whether Manx people are a race or nationality is complicated; important to focus on discriminatory aspect of race, rather than nationality, 128

there has been an agenda to tarnish the reputation of the Island over the last year, 19

we are British: it is not that the British inflict a situation on we who are not British, 470

would have preferred to have all discrimination issues dealt with together in one Bill, but drafting was too difficult, 70

credibility of House of Keys is at stake, by looking at censoring Mr Bell, 29-30
 constitution of Tynwald and its branches has been changing over last 120-odd years, nothing has stood still, and we have still got to move forward, 586
 equality should go throughout public sector in all issues, not just race and colour, 179
 if we continually look back at history, we will never move forward; if sheadings should not change, then nothing will change, 643
 if we always stuck to traditions, people would not have got the vote or got involved with the House, 76
 Lord Bishop's first contribution to Tynwald was less than helpful, 644
 memories are flawed after many years, looking back at Mount Murray situation, 29
 high price of drugs increases when in short supply, which leads to further criminal activity, 274

 need to get right balance to legislation on HMOs, so as not to discourage people entering them or registering, 621
 no-one can reach a conclusion about Mr Bell and Mount Murray beyond reasonable doubt, 29
 not just tribunals should be independent, but also other hearings and appeal bodies; Attorney General's position on LegCo should be reviewed, 106

 rejoices in legislation which allows other members to join EU, 304, 420
 Standing Orders should not be suspended lightly; Members should have opportunity to bring amendments, 479
 strange that Mount Murray issue was not raised again by someone in House after Mr Delaney's Question, 30

Quine, Edgar, MHK –

aimed to draw a line between scrutinising role and policy initiating role within reformed Tynwald, under Constitution (Legislative Council) Bill, 583

Bishop should not have vote, but have seat in Tynwald to offer counsel, 642

dealing with racial discrimination comes down to education throughout society, 69

his Constitution (Legislative Council) Bill does not disturb the sheadings, which is a historical element, 641

incontrovertible that Mr Bell misled the House on 7th April 1992 re Mount Murray, 16

Irish Republic Constitution allows 90 days for scrutiny by second chamber, which is reasonable, 464

overriding consideration in setting sitting dates is that there are enough to carry out legislative business, 176

political head should never resort to blaming officers, 41

'possession' of cannabis is often the only offence which traffickers can be prosecuted on, without evidence of sale, 239

spent over 30 years living in a multi-racial society: different being on the inside looking out from being on the outside looking in, 69

we should be able to deal with racial discrimination through more general legislation, rather than through dedicated legislation, which may set racial groups apart, 69

Rimington, Hon. John, MHK –

- constitution does not belong to Members but to people of Isle of Man; therefore major reform should require referendum, 581
- democracy is important, but not as an abstract: people want good government, 681
- does not think burden of proof is there, despite conclusions of Management and Members' Standards Committee, 40
- flawed recommendation re Keys sitting dates, need to ensure sufficient sittings in year and avoid conflict with school holidays, 174
- MHKs may have genuine reasons for resigning, so there must be a mechanism for it, 477
- 'personal file' as a Minister is actually a very *impersonal* file, contains correspondence dealt with by officers, 40
- Privy Council was consulted by Management and

Members' Standards Committee as to whether Committee was properly constituted and had necessary powers, 40
