INDEX & SUBJECT GUIDE

This Hansard Index and Subject Guide is a guide to – rather than an exhaustive summary of – information contained in the Official Report of the Legislative Council Debates in the parliamentary session 2004-05 (Volume 122).

The Index records not only what is said by Members, but, amongst other things, details of Questions asked, motions and amendments passed, and Bills being taken through their various Readings. A subject guide and ‘digest’ of Members’ views is also provided.

To use the Index, select the topic you require and follow any links provided. For example, a search under **Health and Social Security, Department of** will also direct you to: *Public Health Directorate* and *smoking*. All entries are listed alphabetically.

Notes:

Questions are listed (1) under the name of the Member asking; (2) the Department or individual being questioned; and (3) separately under the relevant subject heading(s).

Bills are listed under: (1) **Bills**, and the relevant stage of their passage through the Legislative Council; (2) the title of the Bill; (3) the Member responsible for taking the Bill through Council.

Index prepared and edited by The Office of The Official Report

China, 158

Christian, Clare, MLC –

cannot compare UK party political system with Island system, 254

canvassing for elections to Council will pose problems of size of constituency, 248

concern about suspending Standing Orders without particular resolution before Council, 96

Congratulations re champion Clydesdale horse, 57

Council's vote in Tynwald may have more authority once Council is popularly elected, 256

dissolving Legislative Council and electing 32-Member Tynwald is very fundamental change in constitution, 238

Governor's net pay should change if tax rate varies, 282

House of Keys is not 'powerhouse'; it is elected legislative body, but in Tynwald it does not hold sway, 229

important that elected Members of Tynwald should have equal status, 77

idea defies logic that Keys Members, with mandate from constituents to make important decisions, cannot decide to appoint Members of Legislative Council, 77

Legislative Council will not oppose election of Council Members by public, 240

love-hate relationship of Keys and Council, 77

need to deal with: (a) constitution of two branches; (b) weak drafting of Bill, 77

no need to dumb down titles of Chambers, 229

nothing in Constitution (Legislative Council) Bill says a Member has to accept nomination, 229

popular election to Council is possible without major functional change – no real clamour exists for change to functions, 229

public should elect Members to clearly defined role, i.e. directly to Legislative Council, 244

questions about MEA are matters of integrity and morals, rather than illegal actions, 133

strongly objects to demoting Legislative Council to a legislative committee, 239

supports Housing (Multi-Occupation) Bill, and its flexibility, 15-16

Tynwald Court should be principal body for policy and

- finance, not constant Questions, 78
 why should Chief Minister not be in either Keys or Council?, 239
