

**86. Accommodation for Vulnerable Young People –
Adequate level of accommodation**

The Hon. Member for Onchan (Mr Callister) to ask the Minister for Health and Social Care:

Pursuant to the Select Committee Report on Accommodation for Vulnerable Young People, what work has been undertaken to deliver an adequate level of semi-independent, quality independently supported and residential accommodation for young people in care, care leavers or estranged?

The Minister for Health and Social Care (Mr Ashford): The DHSC Children and Families Service contract provision of two facilities to provide semi-independent accommodation for care leavers. This is sufficient for purpose and is fully supported, registered and regulated.

The Homeless Strategy will consider the need for supported accommodation at different levels for other vulnerable groups of young people and young adults.
