Hello,

This is the petition mentioned in the Tynwald submission, I will get all other requests and evidence to you asap. I need to meet with a few groups before I have everything I need. Please let me know if the attachments do not work and I will try again.

Thank you

Kind Regards

Roseleen

Subject: Animal Welfare Legislation

Dear Ms Harrison

In Tynwald Court on 19th November 2014 it was resolved:-

That a committee of three Members be appointed with powers to take written and oral evidence pursuant to sections 3 and 4 of the Tynwald Proceedings Act 1876, as amended, to consider and to report to Tynwald on the Petition for Redress of Roseleen Harrison presented at St John's on 7th July 2014 in relation to animal welfare.

A copy of [your](#) petition is attached.

The Committee is seeking your views on current animal legislation in the Isle of Man and what should be included in future legislation.

In particular, would it be helpful if Tynwald introduced legislation equivalent to the United Kingdom Animal Welfare Act 2006? For your reference this legislation may be found on the following link:-

[Animal Welfare Act 2006](#)

Any other observations which you feel would be appropriate to make connected to this topic would also be appreciated.

We would be grateful to receive a response by Thursday 16th January. Your response may be by email on this email address or in hard copy to the address as below.

Thank you.

Kind regards
Marie Lambden

						Puppy mills run in a similar manner as a factory farm, but the “commodities” produced are puppies. Just as the dairy cow is a “milk machine” the mother puppy mill dog is a “puppy machine,” only valued for her ability to produce dogs that can be sold at a high price. Puppy mills can house hundreds of dogs at a time in small wooden or wire cages, hardly large enough for multiple dogs. When caged and isolated for long-periods dogs can go temporarily insane, make conditions especially stressful on top of the putrid smell from piles of waste.
						Female dogs are bred continuously until they literally can no longer reproduce, at which point they are killed or auctioned off. According to an undercover investigation done by PETA, puppy mill mothers are often malnourished, not treated with proper veterinary care, and are barely shielded from heat and cold. Mother dogs are essentially regarded as vessels and treated with zero respect or compassion. After their endless litters of puppies are torn away from them and sold, mother dogs experience extreme depression and distress, left alone in their small cages pacing maddeningly to cope with their despair.

Sue Bosbury	Aberdeen	SCT	AB21 0PE	United Kingdom	03/06/2014	All animals deserve a decent chance at life! This is a disgrace to the Isle of Mann and the residents who fight every day for decent conditions for all animals.
Dorothy Gale	Rochdale	ENG	OL128PX	United Kingdom	03/06/2014	There are laws to stop abuse of humans so ther should also be laws to stop animal abuse or do you think animals do not feel pain .Anyone who abuses an animal should be jailed. Beleive me in my world they would be.Please bring in laws to stop this.
Thomas France	Durand	IL	61024	United States	04/06/2014	A breeder selling kittens STILL after many people worked so hard to SAVE many kittens in deplorable conditions, some barely surviving.
						Everywhere needs a welfare act like this to stop people thinking that because there us no law, they think they can be cruel and ignorant and get away with not treating animals with love, care and respect.

siobhan garaty	manchester	ENG	m8 4hf	United Kingdom	23/06/2014	is important and the right, moral thing to do. peace
Nella Mitchell	Sydney	NSW	2137	Australia	24/06/2014	I love cats.
						How can a protected bird species be shot at during breeding season, and the shooting take place aiming over (and endangering) a cat sanctuary and the other animals housed there (such as horses) and also the humans sitting outside be ignored? Just because the shooter has obtained a licence from the government to shoot birds etc? This ability to buy such a licence highlights another reason we need to adopt the Animal Welfare 2006 Act, alongside the need empower the MSPCA and give them the ability to stop repetitive animal cruelty, to stop puppy and kitten farming, and to stop the easy issue of licences that allow the shooting/culling of "feral" cats - as apparently they are currently classed as "vermin" along with rats and rabbits. How the licensed shooter knows which cats are "feral" and don't have micro-chips has to be questioned, especially as many chipped pet cats do not wear collars. Feral colonies are neutered and chipped and then released to act as "worker" cats on farms etc - so technically are no longer part of the original "feral" community. How does the shooter know which these are? The simple answer is he (or she) doesnt - they just shoot. We need animal and wildlife welfare laws that are world leaders - not laws which lag behind everywhere else. Please help rectify these problems asap.

Bidda Jones	Braidwood		2622	Australia	07/07/2014	i am sorry I did not see this petition until after Tynwald Day, but I am gald ot be able to sign it now. Having grown up on the Island and then working for the RSPCA in England and now Australia for over 20 years, I know just how crucial animal welfare legislation is. It is a shame that it has not been seen as a priority by lawmakers - all too often animals are not given the attention and protection they deserve because we put other things ahead of them. But now is the time to act.
