

## Slaughter of Cows and Heifers in Calf.

---

---

His Excellency the Lieutenant-Governor invites the co-operation of farmers, dealers, auctioneers, butchers, and others concerned in opposing the practice, which is most prejudicial to national interests at the present time, of selling Cows and Heifers in Calf for slaughtering for beef, which animals in ordinary circumstances would have been kept for breeding and milking.

By order,

B. E. SARGEAUNT,

Government Secretary.

Government Office,

Isle of Man,

2nd March, 1915.
