

## FINANCIAL ECONOMY.

---

HIS Excellency the Lieutenant Governor desires to appeal to Local Authorities, Poor-Law Guardians, and Education Authorities throughout the Island to use their utmost endeavours to curtail expenditure during the continuance of the War. New works should not be undertaken unless absolutely essential in character, and new schemes which involve the raising or spending of money should not be embarked on.

The Lieutenant-Governor feels confident that the Authorities appealed to realize the important part which finance plays in the present War and that they appreciate the necessity for preserving this most formidable weapon for the national cause.

By Order,

B. E. SARGEAUNT.

Government Secretary.

Government Office,

Isle of Man,

29th May, 1915.
